What's wrong with the code

```
Class Button {  
  render () {  
    const [text, setText] = useState("");  
    return <button>{text}</button>  
  }  
}
```

Options

- ☐ Can't use hook inside the render function
- ☒ Can't use hooks inside a class ✓
- ☐ All is good, it will work
- ☐ Have to wrap <button> with a div
